### Manifest Summary

Year:	2004
Manifest Details:	0.2 Tons Of Liquids With Halogenated Organic Compounds >= 1,000 Mg./L From 1 Manifests Disposed Of By Transfer Station
<hr/>	
Year:	2003
Manifest Details:	0.1 Tons Of Liquids With Halogenated Organic Compounds >= 1,000 Mg./L From 1 Manifests Disposed Of By Transfer Station
<hr/>	
Year:	2001
Manifest Details:	0.2293 Tons Of Liquids With Halogenated Organic Compounds >= 1,000 Mg./L From 1 Manifests Disposed Of By Recycler 0.221 Tons Of Solids Or Sludges With Halogenated Organic Compounds >= 1,000 Mg./L From 1 Manifests Disposed Of By Recycler
<hr/>	
Year:	1998
Manifest Details:	0.1793 Tons Of Halogenated Solvents (Chloroforms, Methyl Chloride, Perchloroethylene, Etc) From 1 Manifests Disposed Of By Recycler
<hr/>	
Year:	1997
Manifest Details:	0.1167 Tons Of Halogenated Solvents (Chloroforms, Methyl Chloride, Perchloroethylene, Etc) From 1 Manifests Disposed Of By Recycler
<hr/>	
Year:	1996
Manifest Details:	0.1668 Tons Of Halogenated Solvents (Chloroforms, Methyl Chloride, Perchloroethylene, Etc) From 1 Manifests Disposed Of By Recycler
<hr/>	
Year:	1995
Manifest Details:	0.2293 Tons Of Aqueous Solution With Total Organic Residues 10 Percent Or More From 1 Manifests Disposed Of By Recycler

## About This Report

---

### ABOUT THIS REPORT:

The databases searched to compile the enclosed report are gathered from numerous federal, state and local governing environmental entities. All of the databases required to be searched by ASTM Standard E 1527 – 05, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process – Section 7.2.1.1 “Standard Environmental Records Sources” have been included in this report, and searched to the required distances from the subject property. Additionally, EnviroCheck Solutions, Inc (ECS) has acquired other valuable databases and integrated them into this report in order to provide more valuable information to our clients regarding hazardous materials storage and release sites within a one-mile radius from the subject property.

ECS has created a sophisticated data update system, keeping our report databases as current as possible (surpassing ASTM E1527 requirements). ECS consistently requests and updates data from each of the government agencies used to create this report. Depending on the type of database, records are updated at the agencies at varying intervals (daily, monthly, quarterly, semi-annually, or annually). An overall data update (including all available updates) is loaded into our specialized software on a quarterly basis.

It should be clearly understood that this database/map report lists only reported and accurately entered sites. Numerous sites have yet to be discovered and therefore are not yet listed by any governmental agency. The most effective way to determine if a site may be listed by a government agency in the future is by performing a Transaction Screen or Phase I Environmental Site Assessment, which include a professional site inspection and review of historical records. This radius report satisfies only one subsection requirement found within the ASTM Phase I Environmental Site Assessment reporting requirements. This report should not be considered a Phase I Environmental Site Assessment. If no sites are found for a database searched, the database and its description are excluded from the report details so as to report recorded sites only. Sites that include erroneous or incomplete address information may not show up on the report. Every attempt is made to include a listing of these unlocated sites in the report where there is a possibility of their impacting the subject property, but no guarantee can be made.

ECS has used a technology called Geocoding to locate the sites on the map. While this technology is the standard of care in the industry and is generally reliable for well formatted, complete and correct addresses, due to the limitations of this technology no guarantee of the accuracy of site placement can be made.

For specific data inquiries, interpretations or environmental consultation contact us via email at [service@envirochecksolutions.com](mailto:service@envirochecksolutions.com), or via telephone at 866-517-5513. A full summary of our firm, including services offered and pricing can be viewed at [www.envirochecksolutions.com](http://www.envirochecksolutions.com).

### DISCLAIMER

ECS has researched and obtained certain State and Federal environmental databases (Data) to assist its client's in meeting the requirements of ASTM E 1527-05. ECS has obtained Data that is readily available and of adequate quality to be included in this report. As of the date of this report, there are certain Data that are either not yet available or are not of adequate quality and therefore are not included in this Report.

This report contains data obtained from multiple governmental agencies. EnviroCheck Solutions, Inc. cannot insure the accuracy of the enclosed information. ECS is in no way responsible for errors and/or omissions occurring in data, data conversion, or for the client's use of the information (report). ECS and its affiliates cannot be held liable for accuracy, storage, loss or expense suffered by customers resulting directly or indirectly from any data provided by ECS. No warranty expressed or implied is made in any way in connection with this report.

---

## Searched Databases

---

The following is the list of Federal, State, and Local databases searched in preparing this report:

### NPL: National Priority List Sites

#### Database Searched to a One Mile Radius

The below-listed sites are found on the NPL database or the Proposed NPL database. NPL sites are a special category among National Superfund (CERCLA) Sites listed in the EPA's CERCLIS database. NPL sites are of serious, high concern and priority based on a national comparison to sites needing investigations and contamination cleanup activities (remediation). These sites, some of the worst in the nation, normally contain high levels of various contaminants that have spread over relatively long distances and usually require long term, highly expensive remediation technologies.

Proposed NPL sites are of serious concern and are in the process of being evaluated for categorization as National Priority List sites.

Delisted NPL sites have been removed (delisted) from the NPL if no further response or action is appropriate at the site, per EPA guidelines.

*These are the sources of this data for this state:*

- **U.S. Environmental Protection Agency's National Priority List, 11/2/2012**
- **U.S. Environmental Protection Agency's Proposed National Priority List, 11/2/2012**

### CORRACTS: Corrective Action Sites

#### Database Searched to a One Mile Radius

The below-listed sites are found on the CORRACTS. CORRACTS is subsets of data found within the Federal RCRA database (RCRIS) or other state database. RCRA Corrective Action is the process by which areas at a hazardous waste facility are evaluated and, if necessary, are cleaned up. TSD facilities are often also listed as CORRACTS facilities.

*These are the sources of this data for this state:*

- **U.S. Environmental Protection Agency's Corrective Action list, 11/30/2012**

### TSD: Treatment, Storage and Disposal Sites

#### Database Searched to a One Mile Radius

The below-listed sites are found on the TSD databases. TSDs are subsets of data found within the Federal RCRA database (RCRIS) or other state database. TSD sites treat, store and/or dispose of hazardous materials and are federally permitted. TSD facilities are often also listed as CORRACTS facilities.

*These are the sources of this data for this state:*

- **U.S. Environmental Protection Agency's Treatment, Storage and Disposal list, 11/30/2012**

### DEFENSE: FUDS and DOD Sites

#### Database Searched to a One Mile Radius

These sites are Formerly Used Defense Sites (FUDS) and Department of Defense (DOD sites). The U.S. Army Corps of Engineers and/or the U.S. Department of Defense is actively working or will be taking the necessary steps to address any cleanup activities needed on these properties.

*These are the sources of this data for this state:*

- **California Department of Toxic Substances Control's Formerly Used Defense Sites list, 12/3/2012**
- **California State Water Resources Control Board's Military Site Cleanup List, 12/3/2012**

### BROWN: Brownfields Cleanup and Reuse Database

#### Database Searched to a One Mile Radius

The below-listed sites are found on the Brownfields database. The U.S. Environmental Protection Agency (EPA) defines a Brownfield site as "real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant." Common examples of Brownfield sites are abandoned gas stations and dry cleaners, railroad properties, factories, and closed military bases. Brownfield sites are located throughout the country, and the U.S. EPA as well as state governments have compiled a listing of these sites.

*These are the sources of this data for this state:*

- **California Department of Toxic Substances Control's EnviroStor list, 12/3/2012**

### CSL: Contaminated Sites List

#### Database Searched to a One Mile Radius

---

## Searched Databases

---

The below listed sites are found on State or Local Contaminated Sites databases. These databases include local and state-designated hazardous waste sites, spill sites, superfund sites, voluntary cleanup program sites and land disposal sites. In general, these sites are currently undergoing remediation for on site contamination, remediation has been completed and/or remediation is proposed. In states where a specific Contaminated Sites database is not maintained, the CERCLIS database will contain applicable information on contaminated sites.

*These are the sources of this data for this state:*

- **California Department of Toxic Substances Control's Permitted Facilities and Corrective Actions, 12/3/2012**
- **California State Water Resources Control Board's Cleanup Program Sites, 12/3/2012**
- **California State Water Resources Control Board's Landfill Cleanups List, 12/3/2012**

DEED: List of Deed Restrictions

Database Searched to a One Mile Radius

The below-listed sites are found on the DEED database. The implementation of recorded land use restrictions within property deeds is one of the methods agencies use to protect the public from unsafe exposures to hazardous substances and wastes. Sites with deed restrictions are often contaminated, however levels of contaminants and methods used to control migration of contaminants are controlled and approved by the agency.

*These are the sources of this data for this state:*

- **California Department of Toxic Substances Control's Deed Restrictions list, 12/3/2012**

CERCLIS: CERCLA/Superfund Database

Database Searched to a One-Half Mile Radius

The below-listed sites are found on the CERCLIS database. The CERCLIS database contains information on hazardous waste sites, site inspections, preliminary assessments, and remediation of hazardous waste sites under CERCLA (Superfund). The database contains general information on sites including location, status, contaminants, and actions taken. This database includes those CERCLIS sites not included on the NPL or Proposed NPL databases.

This includes sites determined to be "No Further Remedial Action Planned" (NFRAP) sites are contained within this database. NFRAP sites may be properties where, following an initial investigation, no contamination was found, contamination was removed quickly, or the contamination was not serious enough to require Federal Superfund action.

*These are the sources of this data for this state:*

- **U.S. Environmental Protection Agency's CERCLIS list, 11/2/2012**
- **U.S. Environmental Protection Agency's CERCLIS No Further Action list, 11/2/2012**

CONTROLS: Institutional and Engineering Controls

Database Searched to a Half-Mile Radius

The below listed sites are found on the U.S. EPA's Engineering Control Sites List and/or Institutional Control Sites List. The Engineering Control Sites list are facilities that have engineered controls in place, such as capping, containment, slurry walls, extraction wells and/or treatment methods that are intended to manage environmental and health risks by reducing contamination levels at a site, or limiting exposure pathways. The Institutional Control Sites list are administrative or legal devices, such as deed restrictions, to ensure that engineering controls stay in place and/or to ensure that land use restrictions stay in place.

*These are the sources of this data for this state:*

- **U.S. Environmental Protection Agency's Engineering Controls list, 3/1/2012**
- **U.S. Environmental Protection Agency's Institutional Controls list, 3/1/2012**

LUST: Leaking Underground Storage Tanks

Database Searched to a One-Half Mile Radius

The below-listed sites are found on LUST databases. LUST records contain an inventory of reported leaking underground fuel storage tank incidents. Thousands of underground storage tanks have leaked within the United States, and both open and closed cases are reported on this list. These leaks can affect subsurface soils and groundwater. Both state and local agencies oversee and track these sites.

*These are the sources of this data for this state:*

- **California State Water Resources Control Board's Leaking Underground Storage Tank list, 12/3/2012**
- **Oakland Office of Emergency Services' Leaking Underground Storage Tank list**
- **San Mateo County Environmental Health's Leaking Underground Storage Tank list**
- **Santa Clara Valley Water District's Leaking Underground Storage Tank list (no longer updated)**
- **Solano County's Local Oversight Program Leaking Underground Storage Tank list**
- **Solano County's Local Oversight Program Underground Storage Tank list**
- **U.S. EPA's Region 1 Leaking Underground Storage Tank list on Tribal lands, 4/1/2012**

---

## Searched Databases

---

- U.S. EPA's Region 10 Leaking Underground Storage Tank list on Tribal lands, 4/1/2012
- U.S. EPA's Region 5 Leaking Underground Storage Tank list on Tribal lands, 11/1/2011
- U.S. EPA's Region 6 Leaking Underground Storage Tank list on Tribal lands, 10/21/2011
- U.S. EPA's Region 7 Leaking Underground Storage Tank list on Tribal lands, 1/1/2011
- U.S. EPA's Region 8 Leaking Underground Storage Tank list on Tribal lands, 7/3/2008
- U.S. EPA's Region 9 Leaking Underground Storage Tank list on Tribal lands, 1/18/2011

### SWIS - Solid Waste Information System

Database Searched to a One-Half Mile Radius

The SWLF database contains information on solid waste facilities, operations, and disposal sites throughout the United States. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites.

*These are the sources of this data for this state:*

- California Integrated Waste Management Board's Landfill list, 12/3/2012
- California State Water Resources Control Board's Waste Water Discharger list, 2/25/2004
- Los Angeles County Public Health's Landfill list, 5/22/2003

### WELLS: Water Wells

Database Searched to a One-Quarter Mile Radius

The below-listed sites are found on the WELLS database. Public Water Wells that have been recorded into the State Water Resources Control Board Geotracker System show up on this database. Due to security reasons, limited information on public wells is available.

*These are the sources of this data for this state:*

- California State Water Resources Control Board's Water Well list

### HAZMAT: Hazardous Materials Storage and Incident Records

Database Searched to a One-Quarter Mile Radius

The below-listed sites are found on local California HAZMAT databases. Data is gathered from local fire and health departments where available. This data includes information on hazardous materials storage, use and disposal sites as well as incident reports, hazardous materials inventory and business plan documents, spills and releases. HAZMAT lists outside of California have not yet been acquired by CTS.

*These are the sources of this data for this state:*

- Alameda County Environmental Health CUPA List, 9/15/2009
- California State Water Resources Control Board's Waste Discharge System list, 2/25/2004
- Drug Enforcement Administration's Clandestine Drug Labs List, 5/5/2011
- Fresno Certified Unified Program Agency's Solid Waste Programs Resource list, 10/4/2012
- Napa County's Local Oversight Program Hazardous Material Site list, 10/17/2003
- Oakland Office of Emergency Services' Hazardous Material Site list, 1/8/2009
- San Bernardino County Fire Department's Hazardous Material Site list
- San Francisco Department of Public Health's Hazardous Material Site list
- San Jose Fire Department's Hazardous Material Site list
- San Leandro Fire Department's Hazardous Material Site list
- San Mateo County Environmental Health's Business Inventory list, 1/1/2010
- Sonoma County Department of Environmental Services' Hazardous Material Site list
- Ventura County's Hazardous Material Site list
- Yolo County Environmental Health's Hazardous Material Site list

### ERNS: Emergency Response Notification System

Database Searched to a One-Eighth Mile Radius

The below-listed sites are listed as having a reported release of oil and hazardous substances that have been called into the Federal EPA and/or state agencies. Minor to major spills are reported and these cases are sometimes turned over to other regulatory agencies for further investigation.

*These are the sources of this data for this state:*

- California Office of Emergency Services' 2002 RIMS list
- California Office of Emergency Services' 2003 RIMS list
- California Office of Emergency Services' 2004 RIMS list
- California Office of Emergency Services' 2005 RIMS list
- California Office of Emergency Services' 2006 RIMS list

---

## Searched Databases

---

- California Office of Emergency Services' 2007 RIMS list
- California Office of Emergency Services' 2008 RIMS list
- California Office of Emergency Services' 2009 RIMS list
- California Office of Emergency Services' RIMS list
- Office of Hazardous Materials' Hazardous Materials Incident Database, 1993-2004, 1/1/2005
- Office of Hazardous Materials' Hazardous Materials Incident Database, 2005-2006, 1/1/2007
- Office of Hazardous Materials' Hazardous Materials Incident Database, 2007-2008, 1/19/2009
- Office of Hazardous Materials' Hazardous Materials Incident Database, 2009, 1/1/2010
- Office of Hazardous Materials' Hazardous Materials Incident Database, 2010, 1/1/2011

- Office of Hazardous Materials' Hazardous Materials Incident Database, 2012, 12/31/2012
- U.S. EPA and National Response Center's 1987-1988 Emergency Response Notification System list, 1/1/1989
- U.S. EPA and National Response Center's 1989 Emergency Response Notification System list, 1/1/1990
- U.S. EPA and National Response Center's 1990 to 2005 Emergency Response Notification System list, 1/1/1991
- U.S. EPA and National Response Center's 2006 Emergency Response Notification System list, 1/1/2007
- U.S. EPA and National Response Center's 2007 Emergency Response Notification System list, 1/1/2008
- U.S. EPA and National Response Center's 2008 Emergency Response Notification System list, 1/1/2009
- U.S. EPA and National Response Center's 2009 Emergency Response Notification System list, 1/1/2010
- U.S. EPA and National Response Center's 2010 Emergency Response Notification System list, 1/1/2011

GENERATOR: Small and Large Hazardous Materials Generators

Database Searched to a One-Eighth Mile Radius

The below-listed sites are found on a GENERATORS database. GENERATORS is a subset of data found within the Federal RCRA database (RCRIS) or other state GENERATORS list. RCRA GENERATORS are federally permitted generators of varying amounts of hazardous materials. A listing on the GENERATOR database does not directly indicate a release has occurred, only that the site generates hazardous materials.

*These are the sources of this data for this state:*

- **U.S. Environmental Protection Agency's Hazardous Waste Generator list, 11/30/2012**

UST: Underground Storage Tank Sites

Database Searched to a One-Eighth Mile Radius

The below-listed sites are found on UST databases. The databases include permitted active, inactive and closed UST facilities recorded with the below mentioned agencies. A listing on the UST databases does not directly indicate a release has occurred, only that the site currently or historically contained an underground storage tank.

*These are the sources of this data for this state:*

- California State Water Resources Control Board's Underground Storage Tank list, 12/3/2012
- Contra Costa County's Site List, 1/1/2010
- El Segundo's Underground Storage Tank list, 1/28/2003
- Kern County's Underground Storage Tank list, 11/12/2003
- Marin County's Underground Storage Tank list, 11/29/2005
- Napa County's Local Oversight Program Underground Storage Tank list
- Riverside County's Underground Storage Tank list
- San Leandro Fire Department's Underground Storage Tank list
- San Rafael Fire Department's Underground Storage Tank list
- Santa Clara County Environmental Health Department's Underground Storage Tank list
- Santa Cruz County Environmental Health Services' Site Mitigation list, 7/31/2003
- Solano County's Local Oversight Program Leaking Underground Storage Tank list
- Sutter County's Underground Storage Tank list
- U.S. EPA's Region 1 Underground Storage Tank list on Tribal lands, 1/1/2011
- U.S. EPA's Region 10 Underground Storage Tank list on Tribal lands, 4/1/2012
- U.S. EPA's Region 4 Underground Storage Tank list on Tribal lands, 6/13/2008
- U.S. EPA's Region 5 Underground Storage Tank list on Tribal lands, 7/1/2011
- U.S. EPA's Region 6 Underground Storage Tank list on Tribal lands, 4/1/2011
- U.S. EPA's Region 7 Underground Storage Tank list on Tribal lands, 1/1/2011
- U.S. EPA's Region 8 Underground Storage Tank list on Tribal lands, 7/3/2008
- U.S. EPA's Region 9 Underground Storage Tank list on Tribal lands, 1/18/2011
- Yolo County Environmental Health's Underground Storage Tank list

AST: Aboveground Storage Tank Facilities Database Searched to a One-Eighth Mile Radius

The below-listed sites are found on the AST database. Permitted active, inactive and closed AST facilities recorded with the state are listed here. A listing on the AST database does not directly indicate a release has occurred, only that the site currently or historically contained an aboveground storage tank.

---

## Searched Databases

---

*These are the sources of this data for this state:*

- California State Water Resources Control Board's Aboveground Storage Tank list, 8/1/2009
- San Leandro Fire Department's Aboveground Storage Tank list

EMISSIONS: Air Emissions Sites

Database Searched to a One-Eighth Mile Radius

The below-listed sites are found on various air emissions databases like dry cleaners and related facilities that have air emissions permits with the state and/or local air quality district.

*These are the sources of this data for this state:*

- California Air Quality Management District's Dry Cleaner Air Emissions list, 7/18/2011

HAZNET: Hazardous Waste Information System

Database Searched to a One-Eighth Mile Radius

The below-listed sites are found on the HAZNET database. HAZNET databases track hazardous materials from "cradle to grave". Some of the sites listed are licensed transportation companies but most are facilities that have had hazardous materials transported off the site or have received hazardous materials

*These are the sources of this data for this state:*

- California Department of Toxic Substance Controls's Hazardous Waste Transportation System 1993 Tanner List, 6/7/2012
- California Department of Toxic Substance Controls's Hazardous Waste Transportation System 1994 Tanner List, 6/7/2012
